LEGALFLY

THE SECURE LEGAL AI ASSOCIATE

LEGALFLY is the leading agentic AI workspace for in-house legal & compliance teams.

AI that unlocks growth

Procure with precision & speed

Halve onboarding time without losing oversight with automated legal reviews.

Contract smarter, scale faster

Streamline legal review and drafting to reduce friction and fuel operational efficiency.

Accelerate compliance, cut risk

Spot red flags instantly and stay audit-ready to cut the risk of disputes and penalties.

2.5x	48%	>1.1
Faster contract review	Reduction in drafting time	Hours saved per query

Why LEGALFLY?

In-house focused

Designed for in-house legal teams at enterprises, automating corporate legal, compliance,and procurement workflows.

LLM-agnostic

LEGALFLY selects the optimal model for every task to maximize accuracy and performance.

Unmatched data security

The only legal AI that fully anonymises documents before processing, ensuring zero data exposure, with an on-premise option for enterprise control.

Complete agentic workspace

LEGALFLY is an end-to-end AI platform with legal agents for review, compliance, drafting, and due diligence — unlike point solutions.

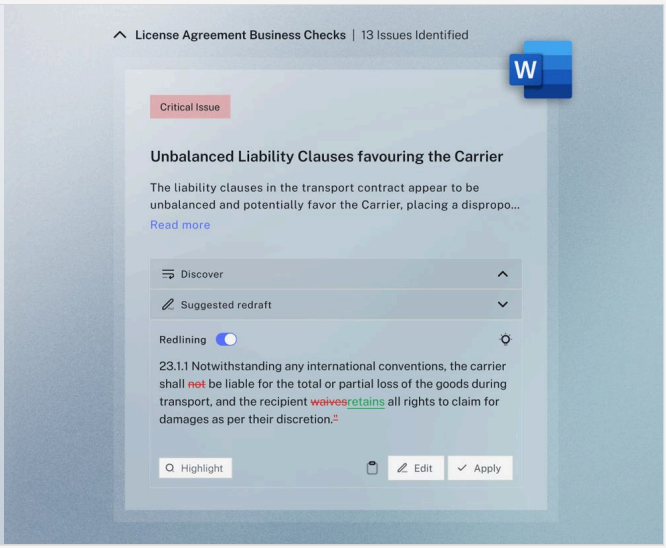

Legally-trained AI

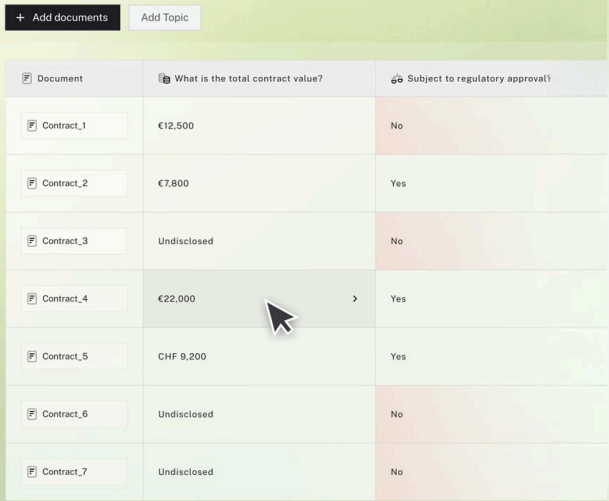

LEGALFLY is trained on legal texts and always cites sources to ensure accurate outputs and reduce hallucinations.

Already integrated with the tools you use daily

WHAT CAN YOU DO WITH LEGALFLY?

- Review legal documents according to standard or custom playbooks.
- Redline and redraft contracts with AI directly in Microsoft Word.
- Draft contracts directly in Microsoft Word according to internal templates.
- Run compliance checks on one or multiple documents at once.

- Compare key terms across policies, contracts or loan agreements.
- Ask legal questions and get answers referenced from reputable sources.
- Get notified about developments in upcoming legislation that impacts your business.
- Create your own custom legal agents tailored to your specific workflows.
